

Setting your sights on site selection.

The only free, interactive site selection tool devoted to the 11-county Minneapolis-Saint Paul region.

Spotting the perfect business site in the Minneapolis/Saint Paul region just got easier, thanks to Google mapping on metroMSP.org. Now you can see the most promising site locations by virtually “touring the neighborhoods” from your desktop.

Google mapping is the latest time-saving feature on MetroMSP.org – the only free, GIS-based site selection tool devoted to the 11-county region. Beyond user-controlled mapping capabilities, MetroMSP.org gives you instant access to valuable site-specific data. Use it to view demographic or workforce stats, map potential competitors, or run consumer expenditure reports.

Getting the big picture has never been easier.
